**DETAILED ACTION**

1. Applicant's amendment filed 03/27/06 has been entered and made of record.

***Terminal Disclaimer***

2. The terminal disclaimer filed on 3/27/06 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Application No. 09/935,738 has been reviewed and is accepted. The terminal disclaimer has been recorded. As a result, the double-patenting rejection of claims 1 and 21-39 has been withdrawn.

***Information Disclosure Statement***

3. The information disclosure statement (IDS) submitted on 1/06/06 is being considered by the examiner.

***Allowable Subject Matter***

4. Claims 1 and 21-39 are allowed.
5. The following is an examiner's statement of reasons for allowance:

With regard to claim 1, the prior art of record fails to teach or suggest claimed features as recited in claim 1. As pointed out by Applicant, see page 2 last 11 lines to page 3 line 4 of the response filed on March 27, 2006, that the AAPA does not teach or suggest the limitation of "middle-high range component compensation section for compensating for a middle-high range luminance of the low frequency luminance signal such that the low-frequency luminance signal has substantially an ideal frequency luminance characteristic which is lower than or equal to a predetermined frequency." Likewise, claims 21-39 are also allowed for the same reasons as above.

Art Unit: 2624

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
